

Not ONE Person Asking to Privatize Jackson Health System!

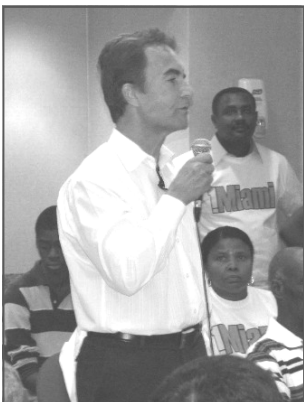

Jackson employee
Debra Diaz, CRNA

After eight town hall meetings throughout Miami Dade County, feedback from the public is clear ...

Not ONE person is asking commissioners to privatize Jackson Health System.

Community members and Jackson employees **OPPOSED** proposed changes to Jackson's governance structure, which could ultimately cut care for patients.

Community Physician
Dr. Bernd Wollschlaeger

So what *is* the public saying about Jackson?

"My colleagues and I give our heart and soul to the Jackson community."

-Debra Diaz, CRNA

"The healthcare system in Miami cannot handle privatizing Jackson. The other hospitals cannot and do not want to handle the indigent care cases. Jackson is for the people, no matter race, creed, color and religion."

-Marla A. Hoyos

"Jackson is not just the hospital I worked at for 20 yrs. but also where my family and I have received the best of care. It is OUR Jackson. It got through 2 world wars, hurricanes and other tough times. We have to get through this too. UNITED WE STAND!"

-Rocio Alonso, RN

"If Jackson is privatized, it will be a death blow for people in need. This is our lifeline to care. Jackson is an option that I need as a community-based physician."

-Dr. Bernd Wollschlaeger
