I am running for the office of President because I intend to restore members confidence, faith and hope in SEIU 1991 that it functions SOLEY at the behest and pleasure of the union members, without impropriety or exploitation. To foster a healthy work environment wherein employees and union members alike embrace and feel embraced in a culture of diversity, inclusivity, equitability that is free of unethical, immoral, duplicitous and dishonest behavior, actions and tactics. Additionally, I intend to modernize the antiquated process' and procedures of the union that disenfranchises and disconnects members voices. I promise the new SEIU 1991 will listen and address every members concerns...I/we will not tip the scale up or down to serve an entitled select few or the agenda of special interest groups. We will serve the people and function on the foundation that the union is intended to represent a single individual member with the resonated echoed supported voice of ALL 6,000 members.

I understand that the information provided here is subject to verification by the Election Committee and will be used to provide information concerning my candidacy.
